

COFFIN ISSUES WARNING TO NATION

States Real Danger Is In
Hysterical or Ill-Ad-
vised Economy

RETURNS FROM TRIP

Deplores Fact That Closed Fac-
tories Should Arise from
Efforts To Economize

ISSUES STATEMENT

WASHINGTON, April 19.—Warning to the nation against a real danger in hysterical and ill-advised economy and interference with normal pursuits of the people, is given by Howard E. Coffin, of the advisory commission of the council of national defense in a statement made public tonight as the first enterprise of the government's new committee on public information. Just returned from a trip thru several middle western states, Mr. Coffin deplores the fact that conditions of unemployment should arise as a result of indiscriminate efforts public and private toward war time economies.

Results Often Impractical.
"After nearly three years of refusal to take the European war and its lessons seriously," Mr. Coffin says, "we suddenly launched forth in a most feverish activity to save the country overnight. Patriotic organizations, almost without number, are milling around noisily and while intentions are good, the results are often far from practical.

"Because of an impending and possible shortage of foodstuffs we have hysterical demands for economy in every line of human endeavor. Waste is bad but an indiscriminating economy is worse.

"Some states and municipalities are stopping road building and other public work. General business is being slowed down because of the emotional response of the trading public to these misguided campaigns for economy, savings are being withdrawn from the banks; reports show that home people have begun to hoard food supplies and thousands of workers are being thrown needlessly out of employment. All this is wrong.

"Unemployment and closed factories, brought about thru titful and ill-advised campaigns for public and private economy, will prove a veritable foundation of quick sand for the serious work we have at hand.

Points to Keynote of Message.
"It is true that the president has said that this is a time to correct our habits of wastefulness. Certainly! But the keynote of his message to the people was this, paragraph:

"It is evident to every thinking man that our industries, on the farm, in the shipyards, in the mines, in the factories must be made more prolific and more efficient."

"We need prosperity in war time even more than when we are at peace. Business depressions are always bad, but doubly so when we have a fight on our hands. The declaration of war can have no real evil effect on business. What bad effects are apparent are purely psychologic and largely of our own foolish making.

"For our markets are the same in April as they were in March. We need more business, not less. There is real danger of hysteria. Indiscriminate economy will be ruinous. Now is the time to open the throttle.

"Every day the advisory commission of the council of national defense receives offers of service from business firms and individuals for requests for immediate information as to how this service may best be rendered. Now and then great dissatisfaction with the governmental departments is expressed because instant advantage is not taken of such offers. Many firms are hesitating to close ordinary business contracts because of a desire to hold capacity open to meet possible early government need.

Most Encouraging Tribute
"This spirit and this willingness to meet sacrifice and even financial loss in the government service is a most encouraging tribute to American patriotism. But we must remember that in the great struggle in which we have now become a part there is much to consider besides munitions, troops and battleships.

"Few of us can serve in any heroic role or even in the supply of munitions to the military arm of the service. In this country of vast resources we already have a tremendous equipment for munitions making, built up on foreign orders and now immediately available thru expiration of these orders.

"Except in limited cases there is little need for the development of new sources of supply.

"The dictates of common business sense require the utilization as far as possible of existing machinery.

"It seems to me, therefore, that a plain statement of general policy is most desirable.

Three Tasks Confront Nation
"Upon the industrial side of the war three great problems, or per-

PLAN FIRM GRASP ON FOOD CONTROL

Legislation Will Be Introduced
In Congress Today

Power Will Be Asked for the Govern-
ment Not Only to Supervise Pro-
duction but to Deal With Distribu-
tion—Details of Plan Not Dis-
closed.

Washington, April 19.—Legislation to give the government a firm grasp on food control will be introduced in congress tomorrow.

Power will be asked for the government not only to supervise production but to deal with distribution. Details of the administration's plans have not become known but it is believed that authority will be requested to establish a virtual food dictatorship if that becomes necessary.

Presents Serious Problem
The food situation, officials realize, presents one of the most serious problems the country will have to meet during the war. The United States faces feeding not only its own population on a small food reserve and poor crop prospects but supplying as far as possible the entire allies.

Secretary Houston today named R. A. Pierson, president of the Iowa State College of Agriculture to serve indefinitely as an assistant secretary of agriculture. At the same time he invited the heads of the five of the great farmers' organizations to come to Washington Monday for a food conference.

Mr. Pierson will serve with Dr. B. T. Galloway, a former assistant secretary of agriculture whom the secretary called here recently from Cornell University to act as an emergency assistant. He will have particular charge of the organization of state boards.

Wilson to Attend Conference
Oliver Wilson of Illinois, representing the National Grange, is one of the men called to attend the Monday conference.

In congress today the senate commerce committee approved a bill to give the president authority to embargo exports, and Representative Ayers of Kansas introduced a bill to punish by a fine and imprisonment artificial manipulation of food prices.

TAKE UP PROGRAM OF TEMPORARY FINANCING

Secretary McAdoo Takes up Question
in Co-Operation With Federal Reserve Board.

Washington, April 19.—A program of temporary financing to meet the government's running expenses between now and the close of the fiscal year June 30 was taken up today by Secretary McAdoo with the co-operation of the federal reserve board. Contemplated measures are the issuance of from \$150,000,000 to \$200,000,000 in temporary certificates of indebtedness to be redeemed July 1st, when the great bulk of the income tax and other revenues due the government for the current fiscal year will be in hand and the attachment to the temporary certificates of a conversion privilege permitting the holders to convert the certificates into bonds or later certificates bearing a higher interest rate and authorized under the \$7,000,000,000 war finance measure. Federal reserve banks will handle the issue of temporary certificates but will not subscribe to them. The issue now planned probably will bear interest at the rate of two and one-half percent.

The same problem will be taken wholly by financial institutions. It is unrelated to the war finance bill authorizing the issue of \$7,000,000,000 in bonds and certificates and the proceeds will be used to meet ordinary and emergency calls upon the treasury while the government is collecting the bulk of its annual revenue for the current year.

FIND GUARDSMAN WAS SHOT BY PRIVATE

TRENTON, N. J., April 19.—Military investigation today showed that Robert L. Price, a private in Co. B, second regiment, New Jersey National Guard, was shot by Charles W. Nelson, alias a private, who was doing guard duty at Yardville.

According to the military authorities, Price was returning early today to a box car the guardsmen are using for sleeping quarters. He fired a shot in the air, which brought Private Nelson to guard. Nelson called to Price to halt. Price hid behind the box car and refused to come forward. When he finally protruded his face Nelson fired, the bullet entering Price's jaw and impairing his sight. Physicians say he will recover.

Nelson has been exonerated.

ATTORNEY AND SISTER MUST SERVE TERM

SPRINGFIELD, Ill., April 19.—James M. Miller, a Chicago attorney and his sister, Lodavine Miller, convicted in the Cook county criminal court of confidence game, will have to serve an indeterminate term in Joliet penitentiary. The supreme court today affirmed the judgment of the trial court.

Lodavine Miller, it is alleged obtained about \$10,000 from Thomas Foulkes, a farmer of Denbury, Iowa, on her promise to marry him and her brother was convicted as an accessory before the fact.

IMPORTS MAKE GAIN.

New York, April 19.—Notwithstanding Germany's submarine blockade imports at the port of New York during March made a big gain over the preceding two months of the year. The total from Europe was more than \$12,000,000 ahead of February, the first full month of unrestricted submarine warfare.

WILSON EXPLAINS SELECTIVE DRAFT

Executive Sends Letter
to Representative Hel-
vering of Kansas

WELCOMES INQUIRY

President Acts as One Step To-
ward Meeting Opposition in
Congress to Army Plans

CONFIDENT OF PASSAGE

WASHINGTON, April 19.—As one step toward meeting opposition in congress to the administration's army plans, President Wilson today sent a letter to Representative Helvering of Kansas, explaining what is meant by selective draft and expressing earnest hope that the bill drafted by the war department would be passed.

The letter said:
"I welcome the inquiry of your letter of April 19 because I have realized the truth of what you say from my own observations, namely, that what is meant to be understood by the selective draft is not generally thruout the country.

"The process of the draft, is, I think, very clearly set forth in the bill drafted by the war department and which I so earnestly hope the congress will adopt, but it is worth while to state the idea which underlies the bill a little more fully.

"I took occasion the other day in an address to the people of the country to point out the many forms of patriotic service that we open to them and emphasized the fact that the military part of the service was by no means the only part, and perhaps, all things considered not the most vital part. Our object is a mobilization of all the productive and active forces of the nation and their development to the highest point of co-operation and efficiency and the idea of the selective draft is that those who are chosen for service in the army who can most readily be spared from the prosecution of the other activities which the country must engage in and to which it must devote a great deal of its best energy and capacity.

"The volunteer system does not do this. When men choose themselves they sometimes choose without due regard to their other responsibilities. Men may come from the farms or from the mines or from the factories or centers of business, they ought not to come but ought to stand by the various activities in the field and see that they get everything that they need and that the people of the country are sustained in the meantime.

Public Authority Should Choose
"The principle of the selective draft in short, has at its heart this idea, that here is a universal obligation to serve and that a public authority should choose those upon whom the obligation of military service shall rest and also in a sense choose those who shall do the rest of the nation's work. The bill, if adopted, will do more I believe than any other single instrumentality to create the impression of universal service in the army and out of it and if properly administered will be a great source of stimulation.

"Those who feel that we are turning away altogether from the voluntary principle seem to forget that some 600,000 men will be needed to fill the ranks of the regular army and the national guard and that a very great field of individual enthusiasm lies there wide open.

The president and administration leaders in congress are confident of the ultimate enactment of the army bill without material changes. The fight will begin in the senate where the bill will be taken up as soon as the espionage measure is disposed of.

Chamberlain Submits Report
Chairman Chamberlain of the military committee submitted his favorable report today. Chairman Dent of the house committee formally presented during the day the report of his committee offering the bill in amended form authorizing the president to call for volunteers in increments of 500,000 and providing for the selective draft only after the volunteer plan has failed.

Receiving 16,000 Applications
Washington, April 19.—More than 16,000 applications have been received by the war department for commissions in the officers' reserve corps. The department will ask congress for appropriations to pay salaries of those attending training camps but in the meantime will ask those who have passed examinations to attend camps pending consideration by congress. Transportation and subsistence also will be paid.

ARREST SIX TURKS.

Helena, Mont., April 19.—Six Turks were under arrest here today, suspected of an attempt to wreck a train on a Great Northern branch line. It is alleged that they placed a large amount of steel across the tracks. All were armed when arrested.

SIX KILLED IN FIRE RESULTING FROM BLAST

Moving Picture Films Explode
in Indianapolis

Forty Persons in Building When Explosion Occurs—Score of Women Hurt in Panic—Police and Civilians Make Number of Thrilling Rescues.

Indianapolis, Ind., April 19.—Six persons are dead and a score of others are suffering from minor injuries as a result of a fire which is said to have started from an explosion of moving picture films in the office of the exchange in an office building and apartment house in the downtown district here tonight.

Forty persons were in the building when the explosion occurred and a score of women were hurt in the panic which followed a rush for the stairways.

The dead:
Dr. Martha E. Keller, a physician, Harry Rowland, 18 years old who resided in the building.
Leona Griffin, 18 years old.
Robert Griffin, 14 years old.
Mrs. M. Griffin, mother of Leona and Robert Griffin.
Mrs. Ella Vinson, 46 years old.

Police men and civilians made a number of thrilling rescues of persons trapped on the third floor. An unidentified man rushed up a ladder thru the flames and snatched a child from the arms of the mother who was about to drop the infant to the ground. He returned and rescued the woman.

The loss to the building is estimated at \$65,000.

TO CONSIDER METHODS FOR RAISING REVENUE

House Ways and Means Committee
With Party Lines Obliterated,
Will Take Up Task Today

Washington, April 19.—With party lines obliterated the entire membership of the house ways and means committee tomorrow will begin consideration of methods for raising new revenue with which to meet this country's share of the war expense. The initial problem will be the raising of approximately \$2,000,000,000 to meet half of the estimated cost of the first year of war for which certificates of indebtedness soon are to be issued.

Careful consideration will be given a list of suggested new sources of taxation sent to the committee last Sunday by Secretary McAdoo. He suggested the raising of about \$1,000,000,000 from various sources, including income, excess profits, liquor, amusement, automobile and tobacco taxes. His list will meet with strong objection in many instances however. It is believed a bill will be reported within two weeks.

ORGANIZE RAILROADS AS NATIONAL SYSTEM

NEW YORK, April 19.—Complete organization of the railroads of the country as a national system for co-operating with the government during the war together with the administrative personnel appointed to have charge of its operation was announced here today by the special committee on national defense of the American Railway Association.

Fairfax Harrison, president of the Southern Railway system and chairman of the executive committee on national operation recently announced is to serve as chairman of the general committee.

The chairman of the six departments into which the national system is divided were announced.

R. H. Ashton, president of the Chicago & Northwestern is chairman of the Central department.

COAL OPERATORS FINISH STATEMENTS

WASHINGTON, April 19.—Bituminous coal operators continuing to place chief responsibility for the high price of their product upon lack of transportation facilities, concluded today their statements before the federal trade commission in the commission's general inquiry into the high cost of coal.

Operations from fields in the south also registered complaints against the scarcity of labor, due, they said, to the migration of negroes to northern and eastern industrial centers.

Next week large consumers of soft coal and the carriers will appear at separate hearings. Later the commission will go to Chicago where operators, consumers and carriers in the central and western districts will be heard.

URGE COMMITTEE TO AMEND ROADS BILL

SPRINGFIELD, Ill., April 19.—Advocates of a Campaign to Bloomington highway today urged the senate roads committee to amend the \$60,000,000 good roads bill so as to include a diagonal road from the Indianapolis road at the Indiana state line to Galesburg.

Delegates from other sections of the state also pleaded for routes that would touch their homes.

A delegation from Alton county urged that a road be constructed north from Hardin along the Illinois river.

The committee adjourned without acting on the bill.

PERMIT TO FILE TARIFFS TENTATIVE

Commerce Commission
Acts in Application for
Rate Increases

TO BE EFFECTIVE JUNE 1

Order, Subject To Recall Or
Change Before Effective Date
Provides 15% Increase

BEGIN HEARINGS TODAY

WASHINGTON, April 19.—All railroads were today granted tentative permission by the interstate commerce commission to file supplemental tariffs, increasing freight rates generally fifteen percent, effective June 1st, next.

Two Courses Were Open.
In this manner the commission disposed of the question of procedure in dealing with the application of the roads in every section for general increases. Two courses had been open: to permit the filing of such tariffs and investigate their reasonableness prior to the date they should go into effect, or to permit the filing of tariffs effective immediately and suspend them during the period of the investigation.

The commission's order is tentative, subject to recall or change prior to the effective date of the rates. In this way the commission brings the issue squarely before the railroads and the shippers in a definite form. Hearings will be begun tomorrow at which each side will be given an opportunity to state its view and a full investigation of the proposed increases seems likely before the commission issues its final finding.

Shippers to Oppose Increase.
Shippers from virtually all parts of the country have signified their intention of opposing the granting of so large an increase which the railroads claim is imperative to operate profitably in the face of the soaring cost of supplies, equipment and fuel and general wage advances, under the Adamson law and otherwise.

At the first of these hearings tomorrow, shippers from New York, Chicago, Cincinnati and other large cities will be present to define their attitude as to the railroad's demands.

Supplemental to the general tentative order the commission issued an order today permitting the increase to apply, tentatively, on all thru rates which are lower than the total of rates to and from intermediate points. This affects chiefly the towns and cities in the inter-mountain territory.

PROMISE FARM ARMY OF 100,000 TO 200,000 MEN

CHICAGO, April 19.—A letter sent today by "Farm army" advocates and signed by J. Hank, a resident of Chicago, to President Wilson, promises the president an agricultural army numbering from 100,000 to 200,000 men to help in increased crop production. The letter reads:

"Honorable Woodrow Wilson,
"President of the United States
"After devoting much time and energy to getting men to enlist in the proposed agricultural army—the plan for the military feature, I have evolved and which has been approved by Eugene Davis, dean of the agricultural college of Illinois—we are ready to tender to the national government at such time as the government is ready to receive their services. From one hundred thousand to two hundred thousand men, too young, too old, or otherwise not fit for service in the regular army or navy of the United States."

NAME RECEIVERS FOR AETNA EXPLOSIVES CO.

NEW YORK, April 19.—Former Governor Benjamin B. Odell and former United States Judge George C. Holt late today were appointed receivers for the Aetna Explosives Company, Inc., an \$18,000,000 corporation, which has been engaged in manufacture of munitions for the entire allies since 1914. In making the appointment the federal court directed the receivers to continue the business and to supply a bond of \$25,000 each.

The appointment of the receivers was announced after the court had conferred in chambers for an hour with counsel representing all parties concerned. It was said the receivers probably will be authorized to issue receivers' certificates to raise funds to complete contracts, obtain supplies and pay the employees of the company's plants in this and five other states.

HOLDS GOLF NOT AN AMUSEMENT.

Springfield, Ill., April 19.—Golf is not an amusement under the statute which authorizes cities to license amusements, according to an opinion handed down in the supreme court today and written by Justice Farmer. The issue was decided in the suit of Mary A. Condon against the village of Forest Park which sought to impose a license on her golf course.

FOOD FIGHTS MAY BE BATTLE WITH GAMBLERS

Soaring Canned Goods Prices
Bring Home Possibility

Purchase of Canned Goods for Summer Delivery Has Pushed Up Price of New Crop, Not Yet Planted, in Some Instances 100 Per Cent.

Chicago, April 19.—Soaring prices of canned goods today brought home the possibility that the fight for adequate food supplies is not merely a struggle to increase production and decrease consumption but may be a battle with gamblers who are trying to reap enormous profits by capitalizing the people's fear of famine.

Push up Price of New Crop.
Purchase of canned goods for summer delivery has pushed up the price of the new crop, not yet planted, in some instances 100 per cent. The remainder of last year's canning has risen proportionately. Housewives have taken fright and are buying in huge stocks at higher prices. In so doing they are said to be playing into the gambler's hands, for the reduction of the present supply is forcing retailers to make purchases for future delivery at the speculator's own prices.

The enormous purchases of canned goods and other staples has forced many retailers to set limits on marketing. Grocers in residential districts declare that the demand for supplies has been so great that they cannot meet it. Restrictions have been placed on the sale of canned goods, flour, sugar and soap.

Hoarding Threatens Disaster.
"This hoarding threatens to become a disaster to the nation," said Sol Westerfeld, president of the National Retail Grocers and Butchers Association. "The food supply is reasonable. In a crisis like this it is unfair for the person with large or even moderate means to buy in huge quantities, leaving the poor to buy from a depleted store at advanced prices."

A rise in the price of bread is looked on by bakers as inevitable in view of the advance in flour. The suggestion said to meet with most favor among bakers is to do away with the six-cent loaf, the recent successor to the old five-cent loaf and to reduce the size of the ten-cent loaf.

BILL PROPOSES STATE COUNCIL OF DEFENSE

Senator Turnbaugh Introduces Bill
Drafted by General Dickson, in
Senate.

Springfield, Ill., April 19.—A state council of defense to cooperate with a national council to investigate and control all questions of defense during the war was proposed in a bill drafted by Adjutant General Dickson and introduced in the senate today by Senator Turnbaugh. It was advanced to second reading without reference to the committee and will be rushed to passage as rapidly as possible.

The state council would be composed of fifteen members named by the governor and confirmed by the senate. They would serve during the war and would receive no pay. The \$50,000 appropriation asked would be only for the purpose of necessary expense.

The duties of the council, as suggested by the bill, would be to cooperate with the national and other state councils in devising means of defending the state and carrying on the war, carrying out in Illinois any plans agreed upon with the national council and to recommend to the general assembly the passage of any legislation, their investigations found desirable for the public welfare.

They would have the power to organize subordinate committees, compel witnesses and conduct investigations.

QUINCY OBSERVES PATRIOT'S DAY

QUINCY, Ill., April 19.—Quincy today celebrated Patriots' Day and the anniversary of the battle of Lexington with the biggest patriotic celebration in its history. It was a general holiday with stores and schools closed. Every home and business house flew a flag while the general section was ably aided by patriotic colors. A parade of military, civic and fraternal orders and more than 3,000 school children required an hour to pass. Veterans of the Soldiers' and Sailors' Home were in line with rifle and drum. Following the parade in a downpour of rain, school children sang in a public park.

HEARING ON ELECTION CONTEST OPENS TODAY

SPRINGFIELD, Ill., April 19.—The hearing on the election contest filed by the "wet" forces in Springfield last week petitioning County Judge Weaver to declare the election held here April 3 at which the town was voted "dry" null and void, will open at ten o'clock tomorrow morning before Judge Weaver. The hearing was to have come up today but failure of the "drys" to file their demurrer until this afternoon caused the postponement.

BERNHARDT IMPROVES

New York, April 19.—There has been "definite improvement" in the last twenty four hours in the case of Madame Sarah Bernhardt, critically ill at a hospital here, according to a bulletin issued by her physicians this evening.

FOUR BUILDINGS BURN.

Columbia, Mo., April 19.—Four buildings in the business district of Columbia were destroyed by fire today. The loss is estimated at \$100,000. The insurance is \$50,000.

FRENCH SCORE IMPORTANT GAINS

Southern Part of Hindenburg Line Continues to
Crumble or Fall Back

TAKE MEN AND GUNS

Efforts of Germans To Hold
Gen. Nivelle's Forces Back
Prove Unavailing

BERLIN ADMITS RETREAT

The southern part of the Hindenburg line in France continues to crumble or fall back before the forces of the French General Nivelle. Thursday witnessed additional important gains by the French at numerous points from Soissons eastward to the old Champagne and also the capture of men and guns. In the latter region northwest of Aubervie, the French captured strongly fortified German trenches on a front of a mile and a quarter and made prisoner 1,500 Germans. Northeast of Soissons the villages of Aisy, Jonvaux, LaFaux and Forte de Conde were captured by the French, while to the east, near Hurltebiz another point of support fell into their hands and with it 500 prisoners and two cannon.

Artillery Actions in Progress.
Violent artillery actions are in progress between the Somme and the Oise, in Champagne, near LeMorte Homme in the Verdun sector and in Belgium around Dixmude.

The French war office reports that Wednesday night the Germans threw twelve divisions of fresh men into the fray between Soissons and Aubervie in an attempt to hold General Nivelle's forces back, but that their efforts were unavailing. The Berlin official statement says German counter-attacks northwest of Aubervie "compensated for the enemy's gain of terrain."

Berlin Admits Retreat.
It is admitted by Berlin that the Germans near Ville-Aux-Bois retreated to new lines, being unable to withstand the intensity of the French fire. Comparative quiet prevails on that part of the line in France held by the British. The latest official communication dealing with the Arras-Lens sector reports slight gains for Field Marshal Haig's forces south of Monch-le-Preux and Fampaux and also to the north in the Loos sector, where prisoners were taken.

While the Petrograd war office announces that the activity on the eastern front has consisted merely of rifle firing and scouting operations, reports from Petrograd, are to the effect that the Germans on the Northern part of the front in Russia, backed by their fleet are preparing for a great attack on the Russian right wing, probably with the intention of attempting to isolate Petrograd from the main Russian armies.

Tentative Aggression in Macedonia.
Considerable fighting is taking place in the Macedonia theater with the Teutonic allies the aggressors. Attacks were delivered in the Cerna river region but according to Paris were repulsed. Violent artillery duels are taking place in the district of Monastir and on the right bank of the Vardar.

Reciprocal artillery fighting also is in progress between the Austrians and Italians in the region of Gorizia, and in the Lagarina Valley. Several minor engagements have been fought with the honors resting with the Italians, according to Rome.

The British house of commons has been informed by Andrew Bonar Law that an announcement soon would be made of further losses of British hospital ships. Whether the vessels were sunk by German submarines was not stated.

PLAN ANTI-GERMAN DEMONSTRATIONS

Buenos Aires, April 19.—A great anti-German demonstration will take place here Saturday night and further demonstrations of the same nature are in preparation in several cities of the republic.

WHITE OUTFBOXES MOHR.

New York, April 19.—Charlie White, the Chicago light weight, outfboxed Walter Mohr of Brooklyn in a ten round bout here tonight. Each man weighed 138 pounds.

WEATHER INDICATIONS AND TEMPERATURES

A HERITAGE OF HEROISM

Who says there is nothing in blood or in a name? Fred L. Funston, aged thirteen, ran away from his home at Sullivan, Ill., to enlist and was taken into custody when he entered the recruiting office of the marine corps in Chicago. The youngster has a patriotic enthusiasm well worthy of the deceased Gen. Fred Funston, to whom he is at least distantly related.

PATRIOTISM AND BONDS

It will not be half bad to have the patriotism of the country attested by the alacrity with which people subscribe for the government bonds to be issued at 3 1/2 per cent. At present money is so plentiful that it is difficult to find a safe loan bearing more than 5 per cent interest. In the average community taxes are such that a 5 per cent mortgage net the holder less than 3 1/2 per cent. The government bonds are exempt from taxation and so it is not going to be a very severe test of patriotism for investors who have money, to reach out after securities of absolute and genuine worth.

LIQUOR MEN TIMID ABOUT FUTURE

Liquor men in annual convention at St. Louis passed a resolution calling on the government to compensate them in event they are forced out of business by legislative action for the duration of the war. There is not much likelihood of such compensation being given, for government regulation, if the war is long continued, will not be confined to liquor and there will be various lines of business at least temporarily out of commission.

The liquor men make the weak argument that they should be compensated because the business they are in is honorable and run under license of the U. S. government. When the license is removed the support disappears with it.

SOUTH AMERICANS REMEMBER THE PAST

Popular feeling against Germany is said to be increasing in Brazil and other South American countries. In a number of instances mobs have attacked German establishments and some looting has been done. This is not surprising when the temperment and history of the South American countries is remembered. Residents there well know what would have happened to them if it had not been for the influence of the U. S. Instead of being free republics they would now be under the rule of Germany.

WILSON UTTERANCE SOUNDS LIKE LINCOLN TO ENGLAND

With a knowledge of the great regard held in England for the memory of Abraham Lincoln, it is possible to appreciate the tribute to President Wilson which recent utterances of A. Bonar Law in the English parliament carried. The statesman in commenting upon the action of the U. S. in entering the war turned these sentences, which in phrasing and sentiment must be very gratifying to President Wilson: "I have read with deep admiration the statement, worthy of Abraham Lincoln, by the president of the U. S. on the event of his country entering the struggle. The aims and ideals to which President Wilson has given noble expression in his recent speech, are our aims and ideals also. As we found out earlier, so the American people have found out that there is no method by which these aims can be secured except by fighting for them."

BEWARE OF RIGID CENSORSHIP

There is not much danger of too strict rules of censorship being included in the espionage bill now before the U. S. senate, with such guardians of the rights of democracy as Senator Hiram Johnson and Senator Borah protesting. Undoubtedly in this land of free speech, something must be left to the judgment of the newspaper editors. Their patriotism should not be called into question at this time, and if they do not observe the right rules and policies in their publications they are just as amenable to the laws of treason as are other citizens. In proposing the censorship provision Senator Johnson said, significantly, "We may well pause lest in our tenderness for democracy abroad we forget our democracy here at home."

YOUR DUTY TO THE SCHOOL SYSTEM

The people of Jacksonville who are interested in their school system and their name is legion should

certainly remember to do their part in the election next Saturday. That part is to go to the polls and cast their votes. J. P. Lippincott, who has served as president acceptably during the past year, is a candidate for re-election without opposition. Mrs. J. K. C. Pierson and Thomas V. Hopper who have also made good records as board members, are candidates for re-election. New names to appear on the ballot will be those of Dr. J. G. Ames and Mrs. Ollie Parker.

The school board work the past year has been of high order in that the expenses have been held within the budget and the work has been of an earnest and harmonious kind. A school board does not have opportunity to make great progress or to carry out any reforms of widespread effect in a year's time, but the indications are that the management of the school system under the general law is going to prove satisfactory to the people thru the years. A school system does good work and is successful in a way commensurate with the interest shown in that system by the parents of the school boys and girls. As already stated, one of the most essential ways of showing that interest is by taking part in elections.

MORE LINES OF WORK FOR WOMEN

Indications are that the same labor condition which resulted in an European country from the war will obtain here. With so many men enlisted in the armies, new lines of work were open for women and they were found to be surprisingly well adapted for duties in connection with the war. The consideration already because of enlistment and the activity in manufacturing lines the question of labor is bothering the big packing plants. So in Chicago they are making investigation as to the number of women available for employment, with the purpose of filling various departments with women workers—departments which in the past have been wholly operated by men. This change promises to be a helpful one for the packing industry because every busy year in the past has found certain seasons when there was shortage of employees at the plants, while at other times workers were necessarily "laid off." When the plan has been perfected of using both men and women from the same families it will be possible for the employers to have conditions worked out in a way which will supply them all needed workers and assure these men and women all the year around employment.

ROOSEVELT'S CALL TO ARMS

Friends of Col. Roosevelt and also those who favor organizing a volunteer army for service on foreign soil, are looking forward with interest to the speech to be delivered in Chicago April 28 by the former president. This speech will be at the Stock Yards amphitheatre and governors from many middle west states will be in attendance. Colonel Roosevelt has declared that this will be the only speech that he will make in support of his proposal and those who know him are confident that he will have some electrifying statements to make.

Some advocates of the immediate sending of an army abroad are already planning to ask the colonel to change his mind and make a series of recruiting speeches, for they are confident that with such speeches the desired result would be readily achieved. But with Roosevelt such a popular idol as he still is in the estimate of millions of his countrymen, one is not over-optimistic in believing that this one speech will be sufficient and that if the colonel is given authority to raise his army of 100,000, that more than that number will quickly answer his bugle call to arms. And such an army on European soil would not add to the spirits of the German soldiery.

THE PEACE CONSPIRACY

(Chicago Post.) "In vain the net is spread in the sight of any bird," said a wise man long ago. We hope "any bird" includes the American eagle, altho it was not known to the wise man.

For the net is being spread and the process of adjusting and baiting it is fairly visible. Diligent hands are directing their efforts. The talk of peace that comes from Berlin and Vienna is not random talk. It is stimulated by American preparations for war and encouraged by the uncertainties of the Russian situation. The desire for peace is not restricted to the capitals of the central empires. The world shares it. But there is a different kind of peace desired.

Germany wants a peace that will save the Hohenzollern dynasty, a peace that will be merely a truce, that will leave the Teutonic empires free to construct their shattered fortunes, re-create their military power and at the opportune moment renew their struggle for world power.

The world that is leagued against Germany wants a peace that will end the domination of Prussianism; that will abolish militarism, create a democracy in middle Europe and free the nations, big and little, from the threat of conquering might forever.

A peace that brings less than this will be a victory for kaiserism. When the German people, brushing aside their war lords, ask for peace it will be in order to open negotiations. But we must be very sure that the war lords are thrust aside and that it is, in truth, the German people speaking for themselves and not as the mouthpieces of a temporarily retiring Wilhelm-Strasse.

The sudden favor in which certain socialist leaders find themselves with the imperial authorities; the license they have been given to speak and to travel; the friendly publicity they are getting in the Berlin press should be enough to put the world on guard. If these men are honest,

they are amazingly simple not to sense the fact that they are being used as tools of Prussian autocracy. If they are sophisticated, they are disloyal to their cause in acting as go-betweens for those who would betray the cause of freedom in Russia.

Russia cannot afford to make peace with the kaiser; nor can the world. Under the veil of indefinite promises that touch merely the periphery of Prussian autocracy, the kaiser seeks to pose as a convert to liberalism. Leaders of democracy in all lands know that the changes proposed in the electoral machinery for the Prussian diet leave unaltered the autocratic heart of Germany. As long as the kaiser remains supreme in foreign policy, arbiter of peace and war; as long as the kaiser and his henchmen do his bidding and exercise power co-equal with the popularly chosen assemblies; as long as the chancellor and other ministers of the government are responsible solely to the sovereign will of the king and emperor, autocracy survives the exceedingly slight alterations in electoral laws. And these alterations have not been made. Their precise nature has not been specified. They are promised under constraint and to serve a purpose. If the purpose be served by imposing on the credulity of Russia or the sentiment of America, who can say that the promises will be kept? Is there anything in the recent record of imperial Germany to invite faith in its pledges?

America has proved that she is willing to pay the ultimate price of blood and treasure for a peace that will be founded on righteousness, on freedom, on assurance that the life of the world will be safe from disturbance under the rule of law. Her allies have invested much to win this great prize. Neither we nor they can be dissuaded from this goal by the offers of a Russian bargain-counter peace.

Rippling Rhymes By WALT MASON

April Evening.

Now fades the quiet April day and dusk enshrouds the scene; I hear the children laugh and play, upon the village green. The early bullfinch clears his throat, and strikes a note that's flat, and by my gate Bill Johnson's goat is eating some one's hat. It is a sweet and restful eve; the world should be at peace; it seems a shame that men should grieve, or send for the police. It seems a shame that wrath and fear should mar this little life, yet all around me I can hear the sounds of war and strife. Jim Higgins yells that things, indeed, have reached an evil pass, since Samkin's cow, with guilford greed, devoured his garden peas. Sil Harris says that tongues and pens his woe cannot describe; he's ruined by the neighbors' hens—he'll shoot the whole blamed tribe. Sim Hopkins has been seeing red since Wigmore stole his pump, and now he's punching Wigmore's head, hard by the village dump. It seems an evil thing to me that in this vale of tears we men can nevermore agree, but pull each other's ears. The solemn beauty of the night appeals but to a few; for men will fuss and fume and fight, while there are rags to chew.

ILLINOIS ROADS WIN SUPREME COURT SUIT

SPRINGFIELD, Ill., April 19.—Illinois railroads won a decision in the supreme court today when the grain statute of 1871, making roads responsible for grain leakage, was held invalid. Dissenting opinions were filed by Justices Farmer and Carter.

The law requires a railroad on receipt of a car of grain to weigh it. The car must also be weighed at its destination and if there has been leakage the road is compelled to pay for the loss. If the road fails to weigh the car and the shipper makes affidavit as to the contents of the car, the road is liable for whatever amount the shipper alleges he has lost.

The case came up for a test from Macon county where the Shellabarger Elevator company filed suit against the Illinois Central railroad company and secured a judgment for a small amount. It is probable that a petition for rehearing in the supreme court will be filed.

A CHILD'S TONGUE SHOWS IF LIVER OR BOWELS ARE ACTIVE

If Cross, Feverish, Sick, Bilious, Give Fruit Laxative At Once.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable feverish or breath is bad, stomach sour, look at the tongue. Mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 5-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company," with contempt—Adv.

The man with money should let those get-rich-quick "snaps" alone.

When you have worked hard for your money don't let some "oily-tongued" stranger, who never did an honest day's work in his life, come along and "talk you in" on some FOOL SCHEME into which you will sink all the hard-earned savings of a lifetime.

You cannot "get rich quick" from the efforts of others. But you can get rich quicker than you think if you will begin banking your money TODAY and firmly resolve to INCREASE the balance to your credit every month. Try it.

Put YOUR Money in OUR Bank.

We pay 3 per cent interest.

GRAY HAired BRICKLAYER WINS ANNUAL MARATHON

BOSTON, April 19.—A gral-haired bricklayer, William J. Kennedy of New York today won the annual American marathon road race of 25 miles, out running a field of fifty younger men. It was a day of victory for veteran runners, as Sydney H. Hatch of Chicago, known as the "man of a hundred marathons" finished second, and Clarence H. Demar of this city, winner of the race in 1911, gained third prize. Hannes Kolehmainen of New York, Olympic star at lesser distances, was fourth.

The time was comparatively slow, Kennedy's winning figures of two hours, twenty eight minutes, thirty seven and one fifth seconds, being more than seven minutes behind the record.

BELIEVE GERMANS WILL MARCH ON PETROGRAD

PETROGRAD, April 19.—via London.—German preparations to attack the northern front supported by a German fleet, reports of which appear to be well founded, bear out the war office warning recently issued that the enemy means to march on to Petrograd.

It is regarded here as extremely probable that the plan is to cut off Petrograd from the active army. The German efforts to spread discontent in the Russian army have developed an ingenious device of loading shells with copies of Chancellor von Bethmann-Hollweg's reichstag speech of March 29 and firing them into the Russian lines.

RENEW SEARCH FOR AIRPLANE

Portsmouth, N. H., April 19.—Naval authorities renewed the search today for a mysterious airplane whose night prowling over New Hampshire has been reported recently by citizens and soldiers. It was reported that another flight over this city was made last night.

DUTCH MINISTER SEES PRESIDENT

Learns U. S. Will Not Interfere With Shipment of Supplies Except Where Assistance to Germany is Likely to Result.

Washington, April 19.—In any policy that may be adopted to regulate the export of food supplies during the war, the American government has no intention of interfering with shipments of supplies to European or other neutral nations, except where assistance to Germany is likely to result. This was learned today after Minister Van Rappard of the Netherlands, had conferred with President Wilson on the subject. Representatives of other neutral European countries have displayed anxiety as a result of the entrance of the United States into the war and the introduction in congress of bills giving the president authority to place embargoes on exports.

House Democrats Reach Agreement At Caucus

National Prohibition Has no Chance of Being Taken up Unless President Recommends It as a War Measure—Fight Over Prohibition Bitter.

Washington, April 19.—Democrats of the House in caucus late today agreed to consider at the present extra session only such war and general defense legislation as may be recommended by the president. National prohibition which is being urged by its advocates as a necessary war measure may be included under this list, but unless the president recommends it as a war measure, it has no chance of being taken up. It also is possible that a rivers and harbors bill embracing such proposed improvements as are deemed essential by the war department for the national defense may be passed. The president has indicated his willingness to approve a measure under certain restrictions and the war department also desires harbor improvements of a limited character. The caucus refused by a vote of 77 to 71 to approve either \$33,000,000 or a \$15,000,000 waterways bill both of which were proposed by Chairman Small of the rivers and harbors committee. The caucus agreement was reached only after a bitter fight over prohibition and after several New York City members had withdrawn because of the adoption of a resolution providing for consideration of a measure to authorize the president to prohibit the manufacture or sale of liquor during the war.

Attid great applause this proposal made by Representative Decker of Missouri was carried 87 to 60.

Then the New York Democrats began to protest and several declared they would not be bound by a caucus which would declare for such legislation.

A hasty conference of leaders followed and Democratic Leader Kitchin offered the substitute finally adopted.

REVERSES CIRCUIT COURT FINDING

Supreme Court Remands Central Trust Company Case to Lower Court With Instructions.

Springfield, Ill., April 19.—The supreme court today reversed the circuit court of Cook county which held the Central Trust company of Chicago liable to pay to the receiver of the LaSalle Street Trust & Savings Bank the sum of \$1,250,000, technically furnished the trust company when it was transferred from a national to a state institution, and remanded the case to the lower court with instructions. The supreme court held that stockholders who owned stock at the time of the suspension of the LaSalle street bank June 14, 1914, were liable for double their stock. In this circuit court was upheld. All appealing stockholders were held not to be liable for stock held by them, but transferred before the date of suspension.

The decision held that the Central Trust company was liable to the creditors of the LaSalle Trust & Savings Bank for any impairment in the capital stock and surplus of the national bank at the time of its transfer to the trust and savings bank.

"The amount of the deficit cannot be ascertained from this record," the decision says.

It is further directed in the decree that the case against the stockholders is entirely separate from the Central Trust company case and that on the remandment they should be docketed as two separate suits.

According to the court's holding, there is no priority of liabilities, both the Central Trust company and the stockholders of the LaSalle Street Trust & Savings Bank being equally responsible to creditors.

MARQUIS PRIETO NEW SPANISH MINISTRY

MADRID, April 19.—Via London. Marquis Manuel Garcia Prieto, president of the senate today formed a new cabinet to take the place of the ministry of Count de Roumones which had tendered its resignation. Marquis Prieto at various times held the portfolios of minister of foreign affairs, minister of justice and minister of public works. He is a member of the permanent Hague tribunal.

ASSURE PARTIAL SUFFRAGE

Lincoln, Neb., April 19.—Partial suffrage for Nebraska women was practically assured late today when the committee of the whole in the senate passed the measure 20 to 11. The house has already passed the measure.

HISTORY OF MEDICINE

The Morgan County Medical Society Will Be Fifty Years Old In May.

Anyone who has information about any of the early doctors of this county, or of any Medical Meetings or Societies prior to 1866, will confer a favor by sending it to Dr. Walter Frank, secretary of the Morgan County Medical Society, 200 Ayers Bank Building, and it will be edited for this column.

DECEMBER MEETING

The approach of the wintry blasts did not prevent a good attendance at the meeting in December. There was a special attraction however, as this was the time set for the report of the Committee on "Fee Bill." This order was not ready until the afternoon session. We might guess that the committee put in the morning in getting together on the various items.

As seems to have been usual Dr. David Prince was the first one on the floor this time for the purpose of exhibiting several varieties of instruments for producing spray to medicate the air passages to produce local anaesthesia so that certain surgical and dental operations could be performed without pain. Either ether or rhigoline was used in the apparatus. This is the first meeting at which Dr. G. V. Black then a rising dentist who had recently removed to Jacksonville appeared before the Society. Dr. Black lived and practiced Dentistry in Winchester before the war and went into the army from there. But after his army service was over he located in Jacksonville in 1865 and continued to practice here until he was called to Chicago as Dean of the Dental Department of Northwestern University in 1897. He always said that Jacksonville was his home. We have already published an account of the instrument which Dr. Black exhibited at this Meeting to protect the lips and gums while the spray was being used. We have also published a few days ago a detailed copy of the fee bill presented at the afternoon session and adopted by the Society. This "Fee Bill" was evidently not adopted without considerable discussion and a comparison of this fee bill with some of those in existence at that time as for example that adopted by the Adams County Medical Society ten years earlier (November 1856) and which no doubt represented the practice of the times.

For the interest which some of those who are occasionally checking up the itemized statement of their family physician for the year (no one pays the doctor oftener

than once a year and we have overheard whispered conversations between Doctors which indicated that few paid them sooner). We give below the Fee Bill of the Adams County Medical Society in 1856 (November) as follows:

First visit and prescription in old City Limits\$1.50
Subsequent visit in same case\$1.00
Night visit, in all cases\$2.00

All ordinary small surgical operations\$1.00
Amputation of arm or leg, not less than\$40.00
Detention in accouchment over six hours, and in all cases where necessary, per hour\$1.00
After the adoption of the Fee Bill the time was pretty well spent. Dr. Prince apologized for not being ready with his paper on "Puerperal Fever" as promised. Dr. W. S. Edgar came to the rescue however and discussed the subject at some length anyhow. When the Meeting was finished the Society adjourned to meet at one o'clock P. M. on the second Thursday in January 1867.

LOCAL Y. M. C. A. MEN TO HEAR OF ARMY WORK

Secretary Spaulding of Alton Will Be the Speaker Saturday Noon at 12:15 O'clock Luncheon

Secretary Spaulding of the Alton Y. M. C. A. will be in the city Saturday and will speak at a luncheon to be served in the association building at 12:15 o'clock. The theme under discussion will be the fund for work among the soldiers at the army posts. Of the Illinois apportionment of \$335,000 for army and state Y. M. C. A. activity, the sum of \$250,000 will be raised in Chicago and the remainder will be sought in the down state campaign. Secretary Findley has just returned from Alton, where he attended a meeting called to consider ways and means for raising this fund. Secretary Findley is in charge of the Jacksonville group, which includes the counties of Morgan, Cass and Scott.

The Situation in a Nutshell
A million men called to the colors. Approximately 75,000 of them Illinois' sons. They will be ushered into an entirely new environment, where temptations will be keen; where they will fall into the grip of that dreaded disease of homesickness; they will be concerned about dependent ones at home. Influences that will help them to be true to their highest manhood will be few.

At the battle's front, in the prisoner-of-war camps, in the concentration camps and in the hospitals of the belligerent countries of Europe as well as with our own American boys at the Mexican border during the past ten months, the Young Men's Christian Association has demonstrated its ability to quickly adjust its program to meet the needs of these men and to be this much needed friend.

WOULD ENLIST STUDENTS FOR FOOD GROWING

WASHINGTON, April 19.—A plan for enlisting college students in food growing battalions to be sent into country districts for farm work at current wages, under supervision of college authorities who would allow academic credits for the labor, was recommended by the department of agriculture's office of farm management in letters sent today to heads of all colleges and universities in the United States. The need for farm labor at this season is so acute says the letter that colleges can afford to suspend class instruction during the remaining six weeks of the school year for students willing to enlist in the farm battalions.

THOUSANDS PARTAKE IN DEMONSTRATION

BURLINGTON, Ia., April 19.—Altho it was raining hard thousands of Burlingtonians took part in a loyalty demonstration here tonight and four thousand people, representatives of practically every organization in the city paraded in the downtown. The rain failed to dampen the spirit of the marchers. Following the parade a great mass meeting was held addressed by Mr. George M. Abbott of Chicago, field secretary of the Universal Military Training League.

SENATE DEBATES ESPIONAGE BILL

Clears Way for Disposal Today of Principal Espionage and Censorship Features

Washington, April 19.—Another day of lively discussion in the senate of the espionage bill, with interest centered on press censorship, cleared the way for disposal tomorrow of the principal espionage and censorship features. Further protracted debate is promised on a section authorizing the president to declare war export embargoes.

Leaders are endeavoring to hasten the final vote on the bill so that the administration army increase measure with its draft feature may be given the right of way.

Several senators today offered amendments to the espionage clause to make less drastic its restrictions upon individual citizens, and the press. Just at adjournment tonight the senate adopted a committee amendment to the censorship clause prohibiting any transmitting any comment or criticisms of the acts and policies of the government or its representatives. The whole section to which the amendment was offered however, still remains to be voted upon.

The house judiciary committee agreed tonight on a draft of an espionage bill similar to those before the senate but stripped of many of the features to which there had been objections.

The objectionable provisions designed to prohibit conveying information prohibited in the bill by "discussion, comment, or criticism" is eliminated.

Agreement on the measure was reached after a long session this afternoon. Chairman Webb was authorized to put the bill in final shape for reporting to the house.

TWO REBEKAH LODGES HAVE NEW SILK FLAGS

The two Rebekahs lodges—Jacksonville No. 13 and Cass No. 625—have each a handsome silk flag with which to adorn their respective halls. At the meeting of Caritas lodge Thursday evening Caritas Rebekahs presented No. 13 with a handsome flag and members of No. 13 gave a national emblem of similar size and material to their sister lodge. The talk in each case was made by Mrs. John J. Reeve, a past president of the Illinois assembly.

Several candidates were received at the meeting Thursday night. The class included Messrs. Ogde and Phillips, Mrs. Nana McDougall, Mr. and Mrs. Jacob Strawn and Miss Helen Strawn. The work was put on by the degree staff of No. 13.

After the work, refreshments were served and a season of music and dancing was enjoyed by the younger members.

MARSHALL FIELD III JOINS FIRST CAVALRY

Chicago, April 19.—Marshall Field III, became a member of the First Illinois Cavalry tonight. He appeared at the North Side Armory about 8 o'clock and the oath was at once administered by Captain Frank R. Schwengel.

The young man was escorted to the riding arena where his drilling began with lessons in mounting and dismounting.

COFFIN ISSUES WARNING TO NATION

(Continued from Page 1)

happ I should better say tasks, confront us. First and foremost, we must facilitate the flow of raw materials and finished products to our allies and must provide the means of rail and water transportation therefor.

"Second, we must meet our own great military and naval building schedules.

"Third, we must plan to do all this with the least possible disarrangement to our own vast commercial and industrial machines.

"Thru it all, we must keep a close eye upon the possible conditions of peace following the present war. We must insure the business success and general prosperity of the country during the war, if we are to hold our present strong place among nations in the commercial competition of the future.

Best to Stick to the Job
"Patriotic services does not necessarily mean the making of shells or the carrying of a musket. This would soon become a sorry sort of country, if it did. There is no doubt of the willingness of any manufacturing plant or individual to serve should the call come. But until the call does come it is best to stick to the job. Let us make better business our watchword and keep our factory fires burning.

"No radically new conditions confront us. We are still cut off from business relations from the central powers, but that does not mean that we have lost any markets. With the rest of the world we will continue to do a volume of trade greater than ever before. To the billions which have been spent here by foreign powers are now to be added billions of our own. State activities, road building, public works, private industries all must go on uninterrupted. We must have successful industries if successful tax levies are to be raised."

ADVOCATE ELIMINATION OF CHAMPIONSHIP IN CONTESTS

New York, April 19.—Elimination of championship in amateur athletic contests during the war and the holding of competitions on such a basis as to interest all citizens in systematic exercise for the improvement of their physical condition were advocated in resolutions adopted here today at a meeting of representatives from leading amateur sport governing bodies.

FORESEE RISE IN COAL PRICE

Chicago, April 15.—A probable increase of 25 cents a ton for soft coal to consumers was foreseen in Chicago today as a result of the advance in miners' wages announced in New York yesterday.

I. W. C. ORCHESTRA IN
THE ANNUAL CONCERT

Work of High Quality Displayed at Well Attended Musical Event Thursday Evening in Music Hall.

The annual concert of the Illinois Woman's college orchestra was given Thursday evening in Music Hall. Those present were unusually generous with applause and they were not slow in expressing a keen appreciation. The orchestra is conducted by Henry V. Stearns, director of the College of Music. Assisting last evening were Mr. Carl F. L. Jensen, pianist, and Mrs. Rosalind M. Day, with the violin.

The orchestra opened the program with Luigi's "Ballet Egyptian." Each movement was rendered with wonderful skill and the whole selection was superbly done. The Mendelssohn overture was beautifully given. The next number was Mendelssohn's "Capriccio Brillant" by Mr. Jensen, assisted by the orchestra.

Mr. Jensen's rhythms are clear and his technique is sure. His fingers are firm and respond easily to any demands made upon them. All of his work was very artistically done. In the conduct of the orchestra, Mr. Stearns had wonderful support in Mr. Jensen and Mrs. Day.

The program was a very artistic one and showed a great deal of work done to good purpose. Two Strauss numbers and the French military march brought the program as announced to a close. The Star Spangled Banner brought to a fitting climax this rare evening of musical entertainment.

Following is the personnel of the orchestra:

Henry V. Stearns, Conductor.
First Violins: Mrs. R. M. Day, Beulah Smith, Rena Rexroat, Paul Hempel and Suzanne Rinehart.
Second Violins: Dorothea Hersmann, Frank Cohen, Wilder Towle, Merlin Terhune and Helen Ruster Meyer.

Viola: Dr. Joseph Torney.
Cello: John Kearns.
Double Bass: Elmer Whalin.
Flute: H. C. Hawes.
Oboe: Percy Jenkinson.
Clarinet: Wilbur Rogers, Edward Clemmons.
Cornet: Chas. Shepard, Grace Harris.

Trombone: McKendrick Blair.
Saxophone: Kathryn Falkenstein and Porter Corrington.
Piano: Carl F. L. Jensen.
Organ: Winifred Sale.

RUPERT ASPLUND HOLDS
RESPONSIBLE POSITION

Illinois College Graduate, Who Has Become Prominent in the State of New Mexico, Named Secretary of Tax Commission

Rupert F. Asplund, of Santa Fe, N. M., has been named secretary of the state tax commission, a position which carries with it large responsibilities and great opportunities for efficient public service. Mr. Asplund is a native of Cass county, coming to this city from Little Indian and entering Illinois college, where he was graduated with the class of 1896.

A New Mexico paper, received by H. J. Bancroft, a class mate of Mr. Asplund, has the following to say in regard to this appointment:

"Mr. Asplund succeeds Howell Earnest, who served as secretary of the tax commission from the time of its organization in March, 1915, until April 1, when his resignation, which was tendered to the new republican board at its first meeting, became effective. James A. Shipley of Silver City, elected secretary by the new commission at its organization meeting here, declined the position after a visit to Santa Fe and an investigation of the duties, and since April 1 the office has been temporarily in charge of Byron O. Beall, of Roswell, field agent of the commission.

"Mr. Asplund was for seven years chief clerk in the department of public instruction here, resigning that position in 1915 to become a candidate for the Republican nomination for state school superintendent. For several months he has been in the employ of the Taxpayers' association, conducting surveys of educational institutions and public schools, and gathering other data for the association, a work that has been an excellent preparation for his new duties. While in the department of public instruction, Mr. Asplund was in charge of the department's statistical work and the experience gained at that time also will be of value to him in his new position. He takes to the tax commission not only a special fitness for the work of secretary, but a record for efficient and conscientious service.

After Mr. Shipley's refusal of the secretaryship, the question of a successor was taken up by President Reid with the other members of the commission by mail, and an agreement for the appointment of Mr. Asplund was reached.

S. S. CLASS HAD MEETING.

The Three B class of Northminster Sunday school held their quarterly social meeting Thursday evening in the parlors of the church. Constantine Rodriguez was elected president, taking the place made vacant by the resignation of Russel Leidy, now serving in the U. S. army. Excellent refreshments were served by the committee in charge after the social hour.

Miss Dorothy Deters who recently underwent an operation for appendicitis at Passavant hospital, is visiting at the home of her uncle, Gus Peterson, near Beardstown. She accompanied her uncle home on his return from a trip to this city in his automobile.

53rd Year in Business

The Duplex ALCAZAR Provides Comfort, Convenience and Economy

It Does More—It Saves Time

—ALL THE YEAR 'ROUND

A single Coal and Wood Range is wasteful except for winter use. A simple Gas Range is wasteful except for summer use. To combine the two is ideal, and meets the demand of the Twentieth Century Home for "Comfort", "Convenience", "Economy"—All the year 'round. The Duplex Alcazar is a single range, only 43 inches long, in which Gas and Coal or Wood can be used at the same time, or separately, just as desired. It is just the range for your home.

There is nothing to lift out or interchange. Simply "pull or push a lever" at lower right hand side of range and oven is ready for use for either fuel. It is as easy as turning on or off the water faucet in a kitchen sink.

It is a range that is complete in itself and provides real "Convenience." It is not a makeshift with dirty parts to pull out and leave standing around the kitchen. Such ranges are nuisances, and add worry to the troubles of neat housekeepers and the practical housekeeper will not put up with it. She does not want to be a mechanic. Her aim is to lighten—not to complicate her kitchen work. She is seeking the happiness of her home and to that end the Duplex Alcazar is in a class of its own. It constantly grows in favor, as the Twentieth Century Housewife comes to know the necessity of reserving her strength through "Comfort" and "Convenience" and the wisdom of practical "Economy."

MORTUARY

Huffman

John D. Huffman of Newcastle, Ind., died suddenly the evening of April 17, according to a letter received Thursday from Mrs. Huffman by Miss Hulda Faugust, 885 East State street. Mr. Huffman and family formerly made this city their home, residing on East State street and removing to Newcastle two years ago. The hour of death was mentioned as 5:45 o'clock, but no further particulars were given.

Mr. Huffman was for many years a well known resident of Scott county. He is a former member of the Illinois legislature. He removed to this city from Bluffs about seven years ago. He was a man of quiet reserve and strict integrity, well worthy of the high respect in which he was universally held. At the time of death he was more than twenty years of age. The widow and one married daughter survive Mr. Huffman.

MILITARY DRILL BEGINS AT ILLINOIS COLLEGE

Major E. C. Vickery Will Direct Training of Students and Alumni—Commanding Officer Well Qualified for Work.

Major Edward C. Vickery inaugurated military work at Illinois college Thursday afternoon when he put a corps of students through a preliminary drill. The beginning of military work was the result of action taken at the mid-week students meeting Wednesday afternoon.

Major Vickery was in command of Company I, Fifth Illinois Infantry during the Spanish-American war. He is a thorough tactician and will be of invaluable service to the men on the hill.

The corporals who were put thru the paces yesterday afternoon are: Wilson, James Capps, Mitchell, Zink, Hayden, Berryman, A. Smith, Lashmet, Crouch and Adams. All of them are leaders in military spirit and athletic work and have shown great interest in military preparedness since the declaration of war by the United States.

Fifty Begin Training.
Fifty men of Illinois College and Whipple have already signed pledges to report for drill regularly. The faculty committee and the students committee unite in an invitation to all alumni and former students to join the Illinois company for training. The fifty men who are signed does not include about twenty-five members of the athletic squad who are brought automatically into the ranks.

The inauguration of military drill does not mean the suspension of spring athletics. The drill will be arranged so that it will not interfere with training. Unless something unforeseen develops the spring schedule of track events and baseball will be carried out.

Coach Harmon has been one of the leaders in the military movement on the hill. Mr. Harmon was second lieutenant of Company B when it was organized and was compelled to resign from the service several years ago on account of his work at Illinois. He probably will assist the men in getting started and will be of great assistance in the early stages of work.

Guns Cannot be Secured Now.
It was hoped that the company would be able to secure guns but there seems no possibility of doing so at this time. Coach Harmon has secured a model for a gun and it is probable that wooden guns will be made by the students with the assistance of one of the planing mills.

The corporals who have been selected for the company are only temporary. The company officers will be elected by the roster after the company is organized.

The first drill will be held Monday when it is expected that nearly one hundred men will report. It is thought that for a time most of the drilling will be done in squads of eight. Some time ago Coach Harmon was of the opinion that it probably would be better to postpone the organization of a company and inauguration of drilling until after school closed. However, at the time he said that it would be left entirely up to the students and evidently the military spirit was too strong to postpone action.

WOODMEN OBSERVE THEIR ANNIVERSARY

Camp 912 is Twenty Eight Years Old—Excellent Program Carried Out—Flags for Souvenirs.

The anniversary of Camp No. 912 Modern Woodmen of America, was duly and appropriately observed last night at Woodman hall on the south side of the square. The camp was organized April 5, 1889, and has had a very successful existence.

The interest of the members has been maintained through the years of the organization, which embraces in its membership some of the most substantial citizens of Jacksonville, has grown in strength from year to year. Members of the camp invited members of Star Camp No. 171 and Athens Camp No. 4380 Royal Neighbors, to be present as their guests. Joseph Gomes was chairman of the evening and addresses were made by George Hatzenbuehler of Bloomington, district deputy; John N. Joquin and J. M. Vasconcellos of Camp No. 912, and Mrs. Pauline Gomes of Camp No. 171.

The anniversary meeting was planned by the foresters' team of camp No. 912 and the committee included Joseph Gomes, Charles Balesley and Louis Conners. Following the program came a social hour during which refreshments were served, and afterward the hall was cleared for dancing. It was made a patriotic occasion by the prominence given to the national emblem and each person present was given a small flag as a souvenir of the evening. The whole anniversary program was greatly enjoyed.

MINNESOTA ENACTS ANTI-LIQUOR LEGISLATION

Prohibition Question to be Submitted at General Elections in 1918—Little Change in Primary Election Laws—Women Divided on Suffrage Issue

St. Paul, Minn., April 19.—The Minnesota Legislature formally adjourned its four months' session shortly after noon today, having enacted, as its most notable accomplishment, a law for submission of the prohibition question to a vote of the people. Women suffrage, a bill repealing the boxing law, and four amendments to the primary election laws providing a return to the party convention system and restoring a partisan legislature, went down to defeat.

In fact, the session was marked by the defeat of important legislation, rather than passage of the new laws. The prohibition question will be submitted at the general elections in 1918 in the form of a constitutional amendment which, if adopted by a majority of those voting, will make the state "bone-dry" after July 1, 1920. Other temperance legislation enacted includes a law abolishing wholesale liquor houses in country districts.

Women were divided on the suffrage issue, one faction requesting the ballot by statutory legislation and the other seeking submission of a constitutional amendment. The latter measure was passed by the House, but defeated in the Senate, where the statutory bill met a like fate.

Vast War Appropriation
The outstanding war legislation enacted creates a public safety commission authorized to organize a home guard and other steps deemed necessary for safeguarding life and property. An appropriation of \$1,000,000 is included, and out of this sum guardsmen who served on the Mexican border will receive 50 cents for each day spent there in federal service.

A law patterned after the Washington state law making the teaching of "sabotage" or the destruction of an employer's machinery a crime punishable by ten years imprisonment, passed both houses.

After a hard fight, the so-called tonnage bill proposing an additional tax of one per cent on the value of iron ore at the mouth of the mine, was defeated in the Senate. Passage of the bill would have brought several millions of dollars into the state treasury annually from the range country.

The most important railroad legislation adopted requires roads to issue interchangeable mileage books, thus making a flat passenger rate of 2 cents a mile in Minnesota.

Disension in the Farmers Forum, an organization of farmer members, resulted in the defeat of many bills. Members of one faction voted against bills aimed at the grain exchanges, on the theory that the measures were backed only by the "political farmers," and were not to the best interests of the rural communities. Among these beaten measures was a proposal for taxing all grain futures transactions and another prohibiting option trading. Bills to compel installation of track scales at all terminals, and separating the grain inspection department from the railroad and warehouse commission, also were lost.

Investigation of grain exchanges by the A. P. Teigen special House committee, did not have the support of the farmer members generally, and after stormy sessions the committee decided to submit no report. The House passed a bill for

an interim commission to investigate grain exchanges and marketing conditions, but the measure was killed by a Senate committee.

Investigate Labor Conditions
For nearly a month the House labor committee, amid scenes of great disorder, investigated industrial conditions in Northern Minnesota in connection with a bill appropriating \$100,000 for use by the governor in controlling emergency labor outbreaks. Scores of industrial workers of the World, mine workers, public officials and labor leaders testified. The committee's conduct of the hearings was severely criticized by both houses and the bill never was reported out.

The session was productive of practically no labor legislation. A state insurance plan as a substitute for the workmen's compensation law, was rejected, as were bills providing an eight hour work day for state employees, and an eight-hour day for practically all classes of labor. The House killed a measure authorizing the use of state prisoners in good roads work.

Despite the strong sentiment in favor of changes in the primary election laws, the only new legislation reported the presidential preference primary. An absent voters' law also was passed. The sharpest fight was for the bill providing a modified convention system, delegates to be chosen at primaries. The House defeated it, 44 to 71. A bill restoring the convention plan for minority nominations also was killed. In the Senate, the party nominations bill and the bill for return to the partisan system of electing legislators, were defeated by substantial majorities.

Parts of the program adopted by the commission appointed by the last legislature for investigation of state departments with a view to re-organizing along lines of efficiency and economy, will be carried out. The bill creating a department of public domain was lost. One enactment abolishes the printing commission and gives its powers to the board of control. The board was made purchasing agent of all state departments by another bill. Still another new law re-organizes the state board of health.

Several child welfare bills, which would make Minnesota laws conform to those of various other states were passed, as was a bill requiring the teaching of patriotism in the public schools.

The state is authorized to contract for removal of iron ore from under lake beds, by another new law.

Changes in the road laws provide that:

Counties may use state and road money to keep roads open in winter. Village streets may be made a part of state highways and improved at county and state expense, with consent of village councils.

Counties may increase the bridge and road tax levy to 5 mills on the dollar of assessed valuation. (The maximum now is 3 mills. The increase is to allow counties wishing to take advantage of federal aid to do so without issuing bonds.)

The highway commissioner, auditor and treasurer, are to distribute the one mill road tax on the same basis as at present.

Maintenance expenses of the highway department are to be paid out of the one-mill road tax fund, by the auditor, treasurer and commissioner instead of out of the general revenue fund by the legislature. Maintenance expenses of the highway department must not exceed 10 per cent of the fund it disburses.

Thirty per cent, instead of twenty per cent of state aid must be used for maintenance of highways by the various counties.

On approval of a majority of the voters of a township, the road and bridge tax may be paid in labor.

Counties may buy or condemn up to twenty acres, instead of one acre, for a gravel pit.

"A STATEMENT OF FACTS"

The Standard Oil Co. produces 90% of all the Gasoline and Oils that are on the market today, and don't be deceived by what some other company might tell you about "Real Gasoline" etc. For the fact is they buy 60% of their year's supply from the Standard Oil Co., and buy it on the open market. Then they would have you believe that they have a superior article. Red Crown Gasoline is as good as the world affords, and can be had at my place of business in large or small quantities at 19c a gallon. JAMES CODY DIES AT MEREDOSIA HOME

Well Known Citizen of County Succumbs to Illness Thursday Morning—Father of W. D. and A. G. Cody of This City

James Cody, an old and highly respected citizen of Meredosia, passed away at his home there Thursday morning at 6:15 o'clock. Mr. Cody had been ill for about two weeks.

The funeral will be held from the family residence Saturday. Interment will be made in Oakland cemetery.

Mr. Cody was born in County Meath, Ireland, March 25, 1844. He was married to Miss Mary Giles Jan. 14, 1864. To this union nine children were born, seven sons and two daughters. Two sons preceded him in death. He is survived by his wife and five sons, Edward, Michael, John, Will and Arthur and two daughters, Margaret and Mrs. Marie Hillig, all residing at home with exception of Will and Arthur of Jacksonville. The deceased came to America in 1870 and settled in Meredosia where he followed his trade as stone mason but owing to failing health has not followed his vocation for about fifteen years.

Philadelphia, 4; Boston, 3.
Philadelphia, April 19.—Bodie
today broke up the first extra inning
game of the season here, when, with
two men out in the twelfth inning
and Grover on first base, he drove
the ball into the left field bleachers,
giving Philadelphia a 4 to 3 victory
over Boston. Bodie led in the hit-
ting. In six times at bat he made
four hits—three singles and the
drive which won the game, which,
under the rules, was credited only
as a triple. The score:

Double Plays by Giants Hold
Champs to a 9 to 2 Score.

Pittsburgh, April 19.—Pittsburgh
lost the opening game of the home
season today to Chicago by the score
of 9 to 3. Hendrix, pitching for
Chicago was effective with the ex-
ception of the seventh inning, when
Pittsburgh scored two runs on sin-
gles by Carey and Ward and a fan-
gled by Doyle. A single by Fischer,
an error by Wortman and a wild
pitch gave Pittsburgh an additional
run in the ninth inning. Three pitch-
ers were tried by Manager Callahan
but all were hit opportunity.

'Way in Front for 8 Years

It was in 1909 that Fatimas nosed
their way to the front and became the
fastest-selling cigarette costing over 10c.

And, except in one or two localities,
Fatima's big lead is increasing faster
today than ever—in spite of the big
sales of cheaper cigarettes, packed to
imitate Fatima.

Of course, Fatima's remarkable sales
do not make Fatimas taste any better

—in fact, no cigarette can just suit
every man's personal taste.

But it proves that MOST men find
that Fatimas keep their promises—that
Fatimas do taste good and are com-
fortable while you are smoking and
that after you smoke they leave you
feeling just as fine as before.

Yes, Fatimas are sensible—and some
day you'll become a Fatima smoker.

DRIVE AWAY HEADACHE

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once! Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do.

Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

THE TEST OF MERIT

Jacksonville People Are Given Convincing Proof.

No better test of any article can be made than the test of time and this is particularly true of a kidney medicine. Doan's Kidney Pills have stood this test and stood it well. What better proof of the merits of this remedy could you demand, than the statement of a Jacksonville resident who used it successfully and tells of lasting results.

Read the following:
P. J. Meany, blacksmith, E. North St., Jacksonville, says: "My kidneys bothered me terribly and were irregular in action. When I bent over, my back ached. Doan's Kidney Pills regulated the action of my kidneys and stopped the pains in my back" (Statement given June 12, 1912).

NO TROUBLE SINCE.
On February 25, 1915, Mr. Meany said: "I have not had to use Doan's Kidney Pills since they cured me of kidney weakness. I have no reason to change my high opinion of this medicine."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Meany has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

ROAD DISTRICT EIGHT IN GOOD CONDITION

The statement of Charles M. Strawn, clerk of road district No. 8, appears in another column and shows expenditures during the past year of approximately \$12,500. This district owns a large amount of road equipment which is constantly kept in good condition. The inventory recently taken shows three engine road graders, three new road levelers, one new oiler and a concrete mixer with gas engine power, together with some tools of less size for road grading work. There are fourteen miles of oiled roads included in the district and they are constantly kept in a condition which makes the road district an example to some others in this county and to a great many districts in adjoining counties.

Travelers over the road in this district have had frequent occasion to comment upon the fine condition in which they are kept. So in driving thru the district it is quite easy to see that the money of the taxpayers has been intelligently and honestly spent.

Little Indian Man Declares

Master Medicine Has Relieved His Troubles

WILL CONTINUE ITS USE

H. S. Stevenson, a prominent farmer residing at Little Indian, near here, is well satisfied with the benefits he has derived from one bottle of Tanlac, the celebrated new medicine.

"I had stomach trouble in the form of indigestion," Mr. Stevenson said on April 11. "I was very nervous, also. Invariably after eating I would experience a burning sensation in my stomach. I was extremely nervous all the time."

"I knew that my case was one that demanded immediate attention and so as Tanlac was highly recommended I bought a bottle of the medicine. I am still very careful about my eating but I don't suffer so severely after my meals now and my nerves have been placed in better condition. I sleep more peacefully than I did before."

"Of course, I cannot say what a few more bottles of Tanlac will do for me but I know that this one bottle has been well worth the price."

"There are, no doubt, hundreds of people here in Jacksonville and vicinity now suffering as Mr. Stevenson did," the Tanlac Man said. "They are run down and their systems are in need of a thorough renovating. Tanlac is designed to relieve this condition and is doing so in numerous cases in Jacksonville and vicinity."

Tanlac is now being introduced in Jacksonville at the Coover-Shreve Drug Co., East Side store, where a special Tanlac representative is explaining the new medicine to the public daily. Tanlac also may be obtained at the West Side store of the Coover-Shreve Drug Co. It is sold in Waverly at the Wyle Drug Co. in New Berlin at the New Berlin Drug Co., in Ashland at H. O. Brownback's and in Versailles at A. G. Bates' drug store.

MERRITT

Mr. and Mrs. W. D. Hitt, Sr., returned to their country home last week after having spent the winter in Jacksonville and we are glad to say that Mr. Hitt has improved considerably during the winter months.

Remember the entertainment that is to be given by the Ladies Aid society on Saturday evening of this week, at the church. A good program has been prepared, and everyone is invited to attend. There will be an admission fee of ten and twenty cents.

Rev. Ray Ragan filled his regular appointment here Sunday evening and there was quite a large attendance.

The lecture given by Rev. Kirkpatrick of Jacksonville last week was very interesting.

Ten o'clock is the hour for Sunday school and all are cordially invited to attend. We are glad to see our superintendent at his post again after an absence of about three months.

L. E. Taylor visited with his father in Concord last Sunday.

J. L. Gillham and family and Miss Martha Gillham spent Sunday at the home of J. H. Hawk.

Mr. and Mrs. Sherman Luttrell of Waverly and Mr. and Mrs. Homer Ransom of Lynville spent Sunday with A. F. Morris and family.

W. L. Breeding made a business trip to Chicago last week.

Norman Campbell was calling on friends in Jacksonville last week.

Mrs. Graves and daughter of Concord visited with Mr. and Mrs. Dick Taylor last Sunday and Monday.

Mrs. Mollie Morrison returned to her home in Concord after visiting with her father, J. N. Campbell who recently returned from California.

DISPLAY JEWEL FLAG.

Of the many novel patriotic displays by local merchants one of the most beautiful and unique is to be seen in the window of Russell & Thompson's jewelry store. In the south window a flag has been made of jewels. The flag is on a background of white. The stars are of rubies and white amethysts. The staff is a gold chain. The flag attracts a great deal of attention from pedestrians who pass the store.

ARCHBISHOPS PLEDGE LOYALTY OF CATHOLICS

BALTIMORE, Md., April 19.—The archbishops of the United States have addressed a letter to President Wilson pledging the loyalty of the Catholic hierarchy, the clergy and people of that faith in this country to the president and the government and accepting "whole heartedly and unreservedly" the decree of congress "proclaiming this country to be in a state of war."

The letter which was adopted by the archbishops at their annual meeting at the Catholic University at Washington yesterday is signed by all the archbishops who were present except in number, the remaining six being unavoidably absent. It was sent to the president today by Cardinal Gibbons, chairman of the meeting.

LEMONS BRING OUT THE HIDDEN BEAUTY

Make this lotion for very little cost and just see for yourself.

An attractive skin wins admiration. In social life and in business the girl or woman whose face and hands show evidence of constant care enjoys a tremendous advantage over those who do not realize the value of a healthy skin and a spotless complexion.

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin.—Adv.

PERU REPLIES TO BRAZILIAN NOTE

LIMA, Peru, April 19.—Foreign Minister Enrique De la Riva Guerrero today handed the reply of the Peruvian government to the Brazilian note announcing the severance of diplomatic relations with Germany to the Brazilian minister here. The note states that Peru censured the submarine war made by Germany and reiterates sentiments of traditional friendship between Peru and Brazil and expresses deep sympathy on account of the action taken. It was announced that similar replies were sent to the Cuban Legations and the Bolivian consulate. It is stated on reliable authority that Chile and Peru will soon re-establish diplomatic relations.

WILL MOVE TO WEST

George Jolly of Franklin will sell his household goods Saturday and will leave at once for Loveland, Col., to make his home. Mrs. Jolly went to Colorado several weeks ago for the benefit of her health.

RUN-DOWN WOMEN

We Have a Remedy That Will Cost You nothing If It Does Not Help You.

Jacksonville women will please realize that we mean just what we say in the above heading. Letters like the following prove the efficiency of Vinol in such cases: "For the benefit of the other tired women, I want to say that I keep house for seven in my family. I became run-down, all played out, I did not seem to have any life in me and looked badly. I read so much about Vinol I decided to try it and I must say it helped me in every way. It built me up so I felt like a new woman, and my friends said they could see a great change in me." Mrs. John M. Waldron, Saratoga Springs, N. Y.

We recommend Vinol to our customers as the greatest strength creator we know because it contains beef and cod liver peptonates, iron and manganese peptonates and glycerophosphates, all dissolved in a pure medicinal wine.

SECURITIES MARKET
DULL; COURSE ERRATIC
Concerted Selling of Special Stocks
Accounts in Large Measure for
Condition.
New York, April 19.—Concerted selling
of special stocks, notably shipping, mo-
tors, tobacco and some of the low grade
rally, due to more or less specific causes,
accounted in large measure for the con-
flicting and erratic course of today's
dull market. New Haven's extreme de-
cline of 4 1/2 points to 3 1/2, was associated
with the company's plan to issue a large
block of preferred stock to meet cur-
rent obligations. The break in automobile
stocks which extended to four points in
general, motors probably had the most
fictitious conditions and the further liqui-
dation of shipments at extreme recessions
of 2 to 4 1/2 points was again attributed
to a well-defined belief that the profits
of those companies are to undergo se-
vere shrinkage under government super-
vision or control.
Union Pacific, Reading, minor coals
and Pittsburgh and West Virginia com-
mon and preferred in which forenoon
advances ranged from 1 to 4 points,
crumbled in the more active offerings of
the last half hour, the market closing
with a heavy tone. Total sales \$10,000
shares. Dealings in bonds were more
diversified and mixed as to tone, local
tractions and some rails showing some
heavy to weak tendencies with irregu-
larity in international. Total sales (par
value) aggregated \$1,620,000.
United States coupons declined 1/2
percent and the registered 4c and Pan-
ama, 1 percent, all on call.

NERVOUSNESS AND BLUES

Symptoms of More Serious
Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces, and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROBT. STODOL, Sage Avenue, Washington Park, Illinois.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

"Kie-Yie-Yie! Get Me 'Gets-It' Quick!"

2 Drops Make Corn "Fall" Off!
"I've joined the Never-Again Club. Never again will I use anything for corns but 'Gets-It'. Put 2 drops of 'Gets-It' on, and from that second the corn begins to shrivel.

"Oh, Don't Touch It! It's So Sore!"
Use "Gets-It" and It Will Never Be Sore!

Instead of swelling up like a little white sponge. Then it loosens from your toe—and, glory hallelujah! the corn comes off as though you'd take a glove off your hand!
Yes, "Gets-It" is the corn discovery of the age. More "Gets-It" is sold by many times than any other corn remedy in existence. Try it and you'll know the reason why. It takes two seconds to apply it, and it dries at once. That's all. Don't experiment—follow the experience of millions and use "Gets-It".
"Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Recommended by the world's best corn remedy by Armstrong's drug store, Coover & Shreve and J. A. Obermeyer.

FARM NOTES

Farm Products and National Defense
Conservation of farm and garden products and production of livestock and crops, subjects vital to this nation's defensive plans—were discussed at a conference of the County Agricultural Advisors and officers of County Farm Bureaus of this state, at Urbana. This meeting was called officially by the State Agricultural Leader.

An entire half day of brisk discussion of national and international conditions with reference to food, and food production was engaged in, also Illinois' share in supplying farm products for this and other countries that must now be fed by the American farmer.

The consensus of opinion was that the most vital problem before the farmer today is that of laborers of the right, or in fact, of any kind. This shortage is already being actually felt in Illinois.

It is thought that the greatest service the Livingston County and Central Illinois farmers can render the nation in the way of production will be in the growing of corn. We are urged to grow all the corn possible. Flow up the poor stands of clover, old and thin meadows and pastures. Repeat corn on corn land where the soil is fertile.

The County Advisor here appeals to every farmer in the County to test out the seed corn and to work the corn land from now until planting time as a means to producing a larger corn crop; also to use the shallow cultivation method.

Save every acre of wheat where there is a half stand.

Next in importance to corn production our duties and opportunities lie in raising pigs. Keep your sows, young and old. Raise fall pigs. The country has been depleted of hogs. Summarily we are urged not to try new crops but to grow the crops we know most about and to grow them with all our might and "brains".

The County Advisor urges the towns and villages of the County to consider equipping small municipal canning plants and to place them in the hands of competent managers, so that the vegetables and fruit in these neighborhoods not needed for immediate use may be packed and stored. Plans for this work will be discussed with interested parties by the County Advisor.

Among many other matters discussed at the State conference was that of price fixing in reference to farm products. It is not probable that any attempt will be made to set prices on food stuffs and farm products, in the near future.

Let us roll up our sleeves and farm as we never farmed before. Let's do our best.

Will Seek to Increase Poultry Production

President E. E. Richards of the American Poultry Association, has called for a nation-wide conference of the poultry breeders and allied industries of the United States in an effort to promulgate a plan to increase the poultry production one hundred million pounds—to aid in the meat shortage that seems inevitable during the next twelve months.

With poultry the people of the nation can, as a by-product, turn the \$760,000,000 of offal that finds its way into the American garbage can into the cheapest and easiest to produce meat of all the various sources of meat production.

The conference will be held at the Sherman House, Chicago, April 20 and 21. Delegates from every state are expected to attend.

A Fine Animal

W. G. Richardson of the vicinity of the Point has recently bought at Livingston, a pedigreed Guernsey bull a year old and will improve his herd. The Guernseys are generally white and fawn color and their specialty is milk in which they are claimed to be preferable to Holsteins and Jerseys. The carcass is worth more than that of the Jersey and the milk output is larger and of a better quality than that of the Holstein. A. L. French bought a number of the same breed not long ago and the success of these two gentlemen with the breed will be watched with interest by Morgan county farmers.

POLICE CHIEF UNDER CHARGES

Anderson, Ind., April 19.—Steve Donahoe, police chief of the city of Alexandria, was arraigned in the circuit court here today for trial on indictments returned after a recent grand jury investigation of alleged "vice" conditions in Alexandria. Several of Chief Donahoe's subordinates in the police department are also under indictment.

LOUISIANA TRAVELERS IN SESSION

Lake Charles, La., April 19.—The freedom of the city has been turned over to the traveling men for today and tomorrow, who are holding the annual state convention of the Travelers' Protective Association. The city is attired in national colors in honor of the occasion and an elaborate program has been prepared for the entertainment of the visitors. The annual parade, which is one of the big features of the convention, will be held tomorrow.

BANKHEAD HIGHWAY CONVENTION

Birmingham, Ala., April 19.—Delegates who attended the national good roads meeting here during the first half of the week remained in the city today to take part in the annual convention of the Bankhead Highway association, which is promoting a national highway from Washington through the south to Los Angeles.

BIG GATHERING OF BOY SCOUTS

Baton Rouge, La., April 19.—An army of Boy Scouts, nearly a thousand in number, and recruited from every part of Mississippi and Louisiana, rallied here today for a general conference and preparedness demonstration. The gathering will continue for several days and will be addressed by some of the national leaders of the movement.

OBSERVE PATRIOTS' DAY

Boston, April 19.—Patriots' Day, a legal holiday in this state, was observed with more than usual enthusiasm today. The principal event was the trip of a horseback rider, impersonating Paul Revere, over the route from Boston to Lexington and the outskirts of Concord followed by the revolutionary patriot who warned the Middlesex county farmers of the approach of the British troops in 1775.

COUNTY COURT TERM IS CONCLUDED

Assault Charge Against W. R. Lovell is Dismissed—Myrtle Tyrrell Enters Plea of Guilty to Charge of Assault With Deadly Weapon.

The business of the April term of the Morgan county court was concluded Thursday. The case against William R. Lovell, charged with assault with intent to kill, was dismissed. The prosecuting witness in the case was William Atkinson and he did not appear in court. The parties live in the vicinity of Nortonville. It developed that the defendant had already been tried in a justice court on the charge of assault and battery.

In the case of Ray McDaniel and Gussie Brakeville, who are charged with violation of the fish and game laws, a continuance was granted.

In the case of Myrtle Tyrrell, alias Mert Terrell, who by the way is a male offender, the defendant entered a plea of guilty to the charge of assault with a deadly weapon and was fined \$100 and costs.

On the common law docket the case of Campbell vs. Campbell was dismissed. The parties live in the neighborhood of Waverly and this was a distress for rent proceeding.

IDLE WORKERS TO JOIN RED CROSS

Lynn, Mass., April 19.—Because of notice served by twenty of the leading shoe manufacturers of Lynn that their factories will be closed after tomorrow, more than 600 members of Women Strikers' Local No. 27, United Shoe Workers of America, have offered their services to the Lynn branch of the American Red Cross. The members of the union have voted unanimously to give at least one hour of their time each week in making bandages and other articles to be turned over to the Red Cross Society.

The closing of the Lynn shoe factories will throw nearly 15,000 workers out of employment. The "peace agreement" between the manufacturers and the United Shoe Workers of America expires tomorrow, but the manufacturers insist that the closing of their factories is not induced by labor troubles of any kind. It is understood, however, that demands for an increased scale of wages have been formulated by the shoe workers.

J. A. Denham of Bloomington was a business visitor in the city yesterday.

ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION

"Pape's Diapepsin" Fixes Sour, Gassy Upset Stomachs in Five Minutes

You don't know what upset your stomach—when a portion of the food did the damage—do you? Well, do not bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight so gently and easily that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized—Ady.
